Synopsis

The French branch of WPSA is waiting for you

More informations at

WPCPARIS2020.COM

Sunday 16th August

Monday 17th August

Registration - 07:30

Tuesday 18th August

Registration - 07:30

Wednesday 19th August

Registration - 07:30

Thursday 20th August

Registration - 07:30

Morning

8:30>10:00
Plenary Session
Economy / Sustainability

10:00>10:30
Coffee Break and poster viewing

10:30>12:00
Plenary Session
One health - One welfare

8:30>10:00
Object-oriented Sessions

10:00>10:30
Coffee Break and poster viewing

10:30>12:00
Object-oriented Sessions

8:30>10:00
Object-oriented Sessions

10:00>10:30
Coffee Break and poster viewing

10:30>12:00
Object-oriented Sessions

8:30>10:00
Plenary Session
New frontiers in poultry science

10:00>10:30
Coffee Break

10:30>11:00
Plenary Session
Ethical issues and poultry science

11:15>12:00
Closing Ceremony

Lunch

13:00>20:30
Registration

12:00>13:30
Sponsored Technical Symposia
DSM
Branch Secretary Meeting

12:00>13:30
Sponsored Technical Symposia
CEVA / AJINOMOTO / DUPONT
Working Group Meetings

12:00>13:30
Sponsored Technical Symposia
CEVA / NUTRITION SCIENCES
Working Group Meetings

12:00>13:30
Lunch

Afternoon

14:00>17:30
Opening Conference by Adissee
«Water: from nutrient to sustainability»
- Water footprint
- Water quality
- Water and proteins
- Water and microbiota
- Water losses in poultry production

13:30>15:00
Plenary Session
The bird and its microbiota

15:00>16:00
Poster Session and coffee

16:00>17:30
Plenary Session
Breeding and nutrition for sustainability

13:30>15:00
Specialized Sessions

15:00>16:00
Poster Session and coffee

16:00>17:30
Specialized Sessions / WPSA Council Meeting

13:30>15:00
Specialized Sessions

15:00>16:00
Poster Session and coffee

16:00>17:30
Specialized Sessions

14:00>17:00
Visit of «Grande Galerie de l'Évolution»
Scientific Conference: 'Poultry: these domesticated dinosaurs' by Prof. B. BED'HOM (National Museum for Natural History)

18:00>19:30
Welcome Ceremony
19:30>21:30
Exhibition Visit and Cocktail

20:00
Special event for WPSA officers

18:00>19:30
Sponsored Technical Symposia
ZINPRO ANIMAL NUTRITION
Working Group Meetings

20:00>00:00
Gala Dinner at the Musée des Arts Forains
(Fairground Museum)

Plenary sessions | Monday & Thursday

	Session title	Keynote's title	Invited speaker
MONDAY	Economy and sustainability of the poultry production chain	Global challenges for the economy of the poultry sector	Peter VAN HORNE (NL)
		Could poultry production become more sustainable?	Joël AUBIN (FR)
	One health - one welfare	The OIE perspective on current challenges for the health of poultry species	Matthew STONE (FR)
		From poultry welfare to ethical issues about poultry farming	David FRASER (CA)
	The bird and its microbiota	The intestinal microbiota, a central actor in the development of the immune response	Bernd KASPERS (DE)
		Variations of the poultry microbiota composition: cause or consequence?	Alessandra DE CESARE (IT)
	Breeding and nutritional strategies for sustainable poultry production schemes	Opportunities offered by genomic selection to breed for diverse production systems ?	Jack DEKKERS (US)
		Nutrition and selection for sustainable poultry production schemes	Ilias KYRIAZAKIS (UK)
THURSDAY	New frontiers in poultry science	PGC & Genome Editing : from laboratory to practice	Jae Yong HAN (KR)
		Epigenetics, domestication and adaptation	Dominic WRIGHT (SE)
		Ethical issues of biotechnologies in animal production	Thomas HEAMS (FR)

Object-oriented sessions | Tuesday & Wednesday morning

	Session title	Invited speaker
TUESDAY & WEDNESDAY MORNING	Integrated strategies to control meat quality defects	Massimiliano PETRACCI (IT)
	Pluridisciplinary approaches to reach the One health objectives	Hein IMBERECHTS (BE)
	Towards longer carriers in layers	Maureen BAIN (GB)
	Adapting poultry production to climate change	Anne COLLIN (FR)
	Early management of broilers: from embryo to the end of the starter phase	Zehava UNI (IL)
	Understanding the microbiome for an improved management of Health and Welfare	Richard DUCATELLE (BE)
	Genetics by environment interactions and epigenetics	Frédérique PITEL (FR)
	Mitigating the environmental impacts of poultry production	Ermias KEBREAB (US)
	Emerging (re emerging) poultry diseases	David SWAYNE (US)
	Understanding nutrition by genetics interaction to optimize feed efficiency	Sandrine GRASTEAU (FR)
	Manangement of broiler breeders	Martin ZUIDHOF (CA)
	Diversity of production systems and services delivered to humans : towards an agroecological perspective	Bertrand MEDA (FR)
	Innovative strategies to answer new expectations from the society	Cesare CASTELLINI (IT)
	Genetics by nutrition interaction on the digestive microbiota	Amelia CAMARINHA-SILVA (DE)
	Robotics and big data for precision farming	Tomas NORTON (BE)
	Social role of poultry production in the Mediterranean area	Nuhad DAGHIR (LN)
	Keel bone damage in layers	Mike TOSCANO (CH)
Poultry production for ensuring food security	Robyn ALDERS (AU)
